Various facility mating options:

- Input Plug
- Terminal Block
- Plugless
- 4-in-1 Combinations outlets accept C13/C15/C19/C21 plugs
- Locking outlets ensure equipment stays connected

Introducing the industry's most innovative energy metering rack power distribution units (PDUs) designed to simplify rack management in your data centre. Enlogic's intelligent PDUs sit within the rack actively monitoring the data center environment, continually looking for threats from electrical circuit overloads, and any physical and environmental conditions which might place critical IT computing loads at risk.
